AMAZING AV EXPERIENCES

WITH LEGRAND | AV

Legrand is the global specialist in electrical and digital building infrastructures. Its comprehensive offering of solutions for commercial, industrial and residential markets makes it a benchmark for customers worldwide. In the AV space, Legrand | AV offers an extended portfolio of branded audiovisual products including flat panel mounting solutions, projector mounts, projection screens, switches, routers, cabling and connectivity, equipment racks, PTZ cameras and furniture for Commercial AV markets. Its innovative products are sold under the C2G, Chief, Da-Lite, Luxul, Middle Atlantic, and Vaddio brand names.

All brands work together to provide a breadth of product, strength of longevity, and advantage of superior customer service and support

C2G.

SIMPLIFIED CONNECTIVITY

C2G simplifies Audio-Video and IT connectivity for commercial applications. Our solutions are innovatively designed to provide the critical features needed for the space they occupy in corporate, education, healthcare, government and other crucial environments.

CHIEF™

INSTALLER INSPIRED

Chief has an extensive portfolio of inspired solutions for flat panel displays, projectors, desktop monitors and other AV components. Through deep customer and end-user empathy, Chief continually strives to create amazing technology experiences.

DA-LITE.

FOR YOUR IMAGE

For over 100 years, Da-Lite has been designing, manufacturing and marketing the most comprehensive line of projection screens in the world. Today, we offer our widest selection ever of proprietary projection screen surfaces and materials in our history.

MIDDLE ATLANTIC.

WHAT GREAT SYSTEMS ARE BUILT ON

Middle Atlantic offers innovative system enclosures, tech-enabled furniture, power products for complete and unmatched AV system support and protection.

LUXUL.

SIMPLY CONNECTED

Luxul is the leading innovator of simple-to-deploy, professional-grade IP networking solutions for use by custom installation professionals. Designed for use in both residential and commercial environments, the Luxul family offers a complete line of solutions that simplify network design and deployment.

VADDIO.

THE ART OF EASY

Vaddio manufactures professional quality PTZ cameras, Pro AV solutions, a full suite of Unified Communication and Collaboration systems. Combining enterprise class performance and industry leading support, Vaddio products enhance any AV experience by elevating the science of communication with The Art of Easy.

Unlock Innovation with Legrand | AV

Discover Solutions That Power Modern AV

Legrand | AV delivers innovative solutions designed to support today's evolving AV environments. Connect with our authorized distribution partners to explore product demonstrations, gain expert insights, and access the local support needed to bring your projects to life.

Explore Innovation

Experience the latest Legrand | AV technologies in practical applications.

Expert Guidance

Gain insights from experienced regional specialists.

Trusted Local Support

Our distribution partners provide the expertise needed for successful project deployment.

ONLINE TRAINING COURSES

AV University is home to C2G, Chief, Da-Lite, Luxul, Middle Atlantic, and Vaddio training courses. All courses are free and many offer CTS Renewal Unit credits. Our wide variety of course options include product certifications, installation tips & tricks, how-to-videos, application specifics, general industry knowledge and much more. The program allows you to pick and choose your courses to help you create exceptional AV experiences every day. You can learn on your own time, at your own pace.

TILED™ SERIES

DVLED UNIVERSAL WALL MOUNTS

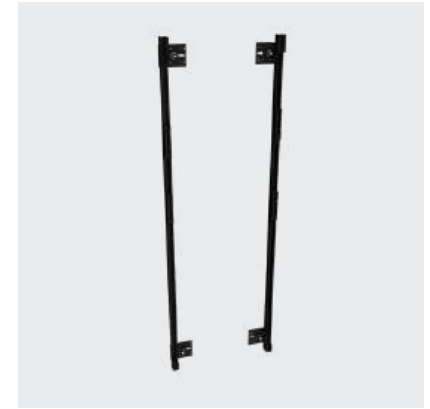

The next generation of TILED™ dvLED Wall Mounts is a universal modular system that is compatible with a multitude of interlocking dvLED panels from leading manufacturers.

RECOMMENDED PARTS LIST:

# OF ROWS	STARTER PIECE	EXTENDER 1	EXTENDER 2
2	DVM27U2		
3	DVM27U3		
4	DVM27U4		
5	DVM27U3	DVM27U2E	
6	DVM27U3	DVM27U3E	
7	DVM27U4	DVM27U3E	
8	DVM27U4	DVM27U4E	
9	DVM27U3	DVM27U3E	DVM27U3E
10	DVM27U4	DVM27U3E	DVM27U3E
11	DVM27U4	DVM27U4E	DVM27U3E
12	DVM27U4	DVM27U4E	DVM27U4E

* Select number of rows high your configuration is from the first column and order the same number of parts according to how wide your configuration is. Example: If your wall is 7x5 find 5 rows high in the table and order 7 starter pieces (DM27U3) and 7 extender columns (DVM27U2E).

New floating button-capture technology and mounting hardware streamlines specifying, ordering and installation. One set of part numbers can be ordered and stocked globally to fulfill a variety of video wall installation needs.

TILED™ SERIES DVLED UNIVERSAL EXTENDED LENGTH WALL MOUNTS

The unique vertically mounted TILED mounts are now also available for 250, 500, 750 or 1000 mm high cabinets and 43" (540 mm high) cabinets. With its X-Y-Z adjustability and 50% fewer connection points than competitive mounts, your installations go smoother and faster than ever.

TILED™ SERIES OFF-THE-WALL™ DVLED MOUNTING SOLUTIONS

TILED Off-the-Wall dvLED Mounting Solutions are engineering-configured mounting solutions for a variety of non-wall mounted dvLED applications.

Whether you're looking to create a direct-view LED video wall that's mounted on a mobile cart, stand, bolt-down or ceiling mount, TILED Off-the-Wall solutions can be configured to work with most dvLED displays.

Built from trusted and proven Fusion Modular parts and new components to create the entire non-wall mounted dvLED mounting solution, these configured video wall mounting solutions are designed with Chief's engineering expertise and years of experience in developing innovative mounting solutions for the AV industry.

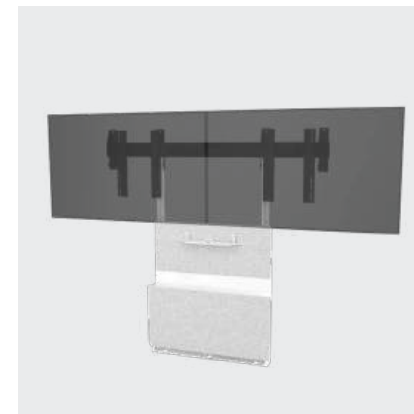

PICK UP THE PACE WITH TEMPO™

COMBINE AESTHETICS WITH INSTALLATION SPEED

Tempo solves common installation challenges by providing clever all-in-one solutions that can be installed quickly. On-wall with Tempo™ Wall Mount or floor supported with the new Tempo™ Floor Support Mount, Tempo provides convenient options.

The Tempo™ Floor Support Mount is the next evolution, reimagined through direct customer feedback. Tempo offers a two-column support system that transfers display weight directly to the floor – making it the go-to choice when wall integrity is in question.

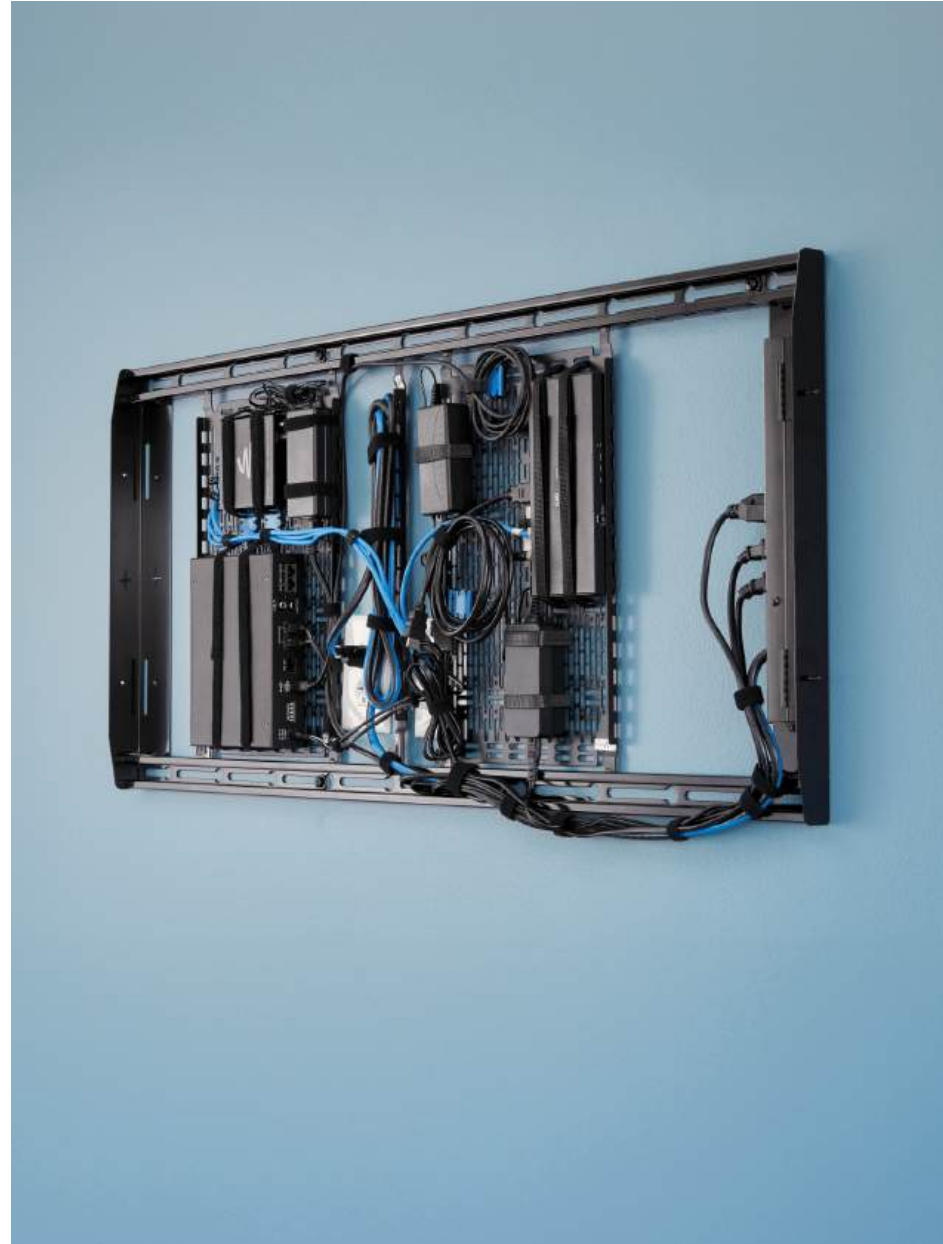

- Supports dual 98" displays
- Built-in videobar shelf
- Integrated storage

TEMPO™ FLAT PANEL WALL MOUNT SYSTEM

- Supports displays up to 86"
- Integrated, flexible storage
- Easy service access

AS3LD

TEMPO™ PORTRAIT FLAT PANEL WALL MOUNT SYSTEM

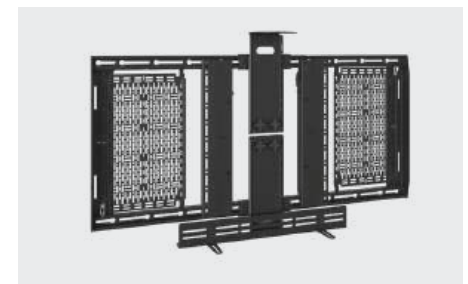

- Unparalleled serviceability
- Integrated storage with easy access
- Coming soon in sizes M and L

AS3PM
AS3PL

TEMPO ON-WALL

ONE PART NUMBER. ONE BOX.
ONE ORDER.

This all-in-one configurable wall mounting system is designed to improve efficiency by streamlining installation workflow.

TEMPO™ ACCESSORIES

Finish your installation with a speaker or camera mount, or a Crestron bracket. Easy to assemble and fits the display mount perfectly.

FUSION STORAGE CABINET
A stylish way to store AV

The Fusion Storage Cabinet system responds to modern AV applications that need an aesthetic front-serviceable AV storage solution when installing small devices and rack mounted equipment behind the display is not an option.

Designed with flexibility and style in mind, the Fusion Storage Cabinet seamlessly integrates with Chief's Fusion wall mounts. Experience convenience and aesthetic appeal with Chief's Fusion Storage Cabinet.

- No wall mounting required
- Pre-install cabinet and ship to site
- Included: 1x Lever Lock™ panel and 1 pair of 19" rackmount brackets

FCASTC

FUSION ACCESSORIES

THE FINISHING TOUCH TO YOUR INSTALLATION

Expand on the customer-favorite Fusion Series by adding accessories! Whether you need additional storage, a camera mount, or something else: we surely have something that will work for you.

**FUSION® DISPLAY MOUNT
ACCESSORY FOR LOGITECH®
VIDEOBARS**

Fully assembled, quick install, camera mount dedicated for the market leading Logitech Rally Bar.

- Can be mounted above or below 55" to 94" displays
- Fusion, Tempo Floor Support Mount and Forum compatible
- Compatible with Rally Bar, Rally Bar Mini and Rally Bar Huddle

FCALRB1

**PROXIMITY® COMPONENT
STORAGE SLIDE-LOCK PANEL**

The Proximity® Component Storage Slide-Lock Panel facilitates easy, concealed mounting of AV equipment behind displays. Attach to a Fusion mount or directly to the wall and simply slide the storage panel out to access equipment.

- 381 x 254 mm storage space
- Weight capacity of 6.8 kg

CSSLP15X10

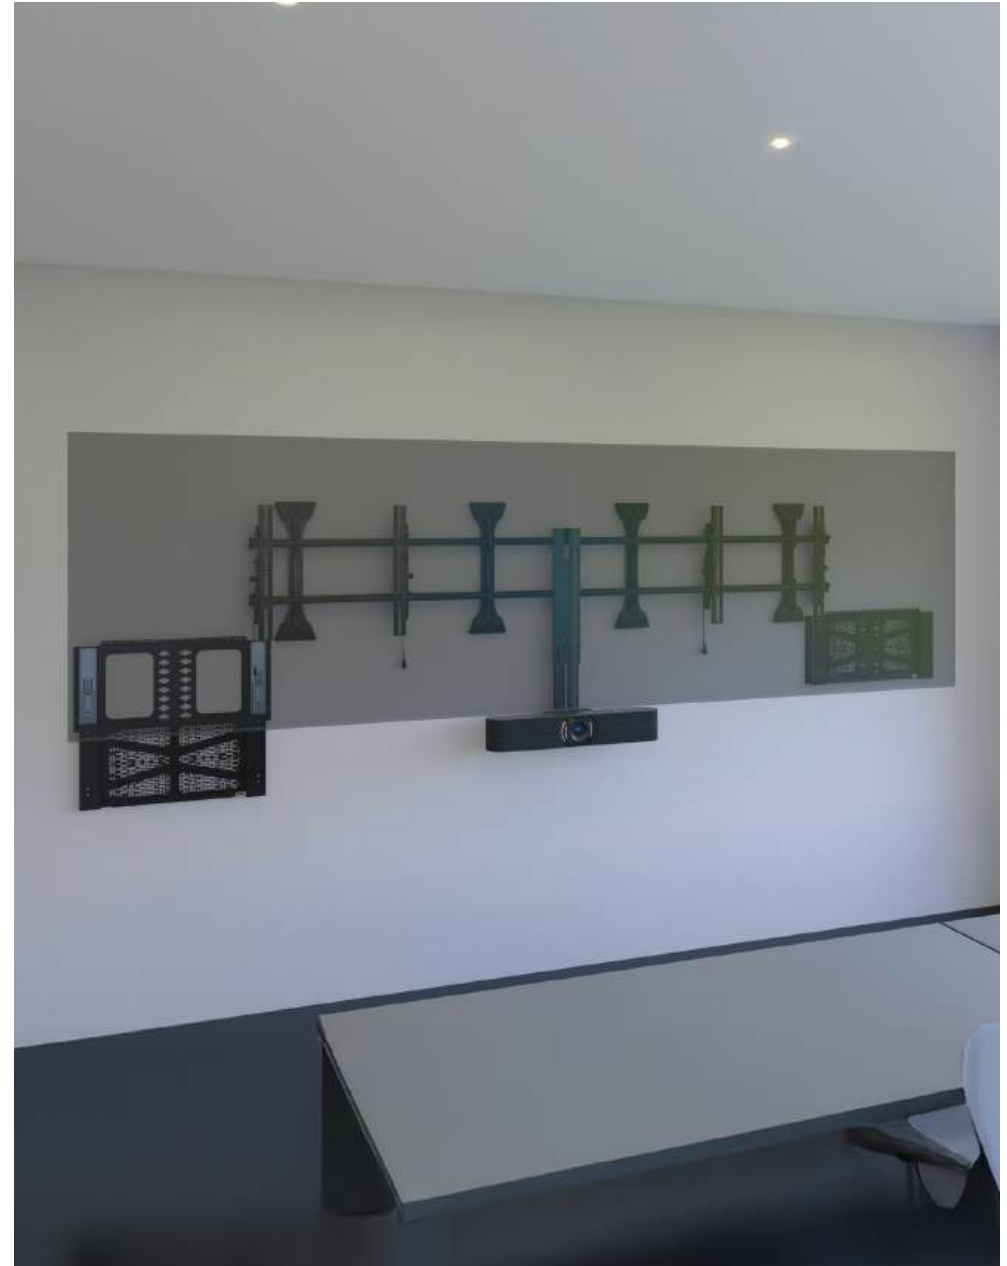

**FUSION PULL OUT
ACCESSORY**

The Fusion pull-out accessory can be used with any of the updated Fusion micro adjustable fixed and tilt wall mounts, including portrait models, to add up to 293 mm extension from the wall.

- Min. depth 39 mm, max. depth 293 mm
- Compatible with MSM1U, LSM1U, XSM1U, MTM1U, LTM1U, XTM1U and MTMP1U

FCAV1U

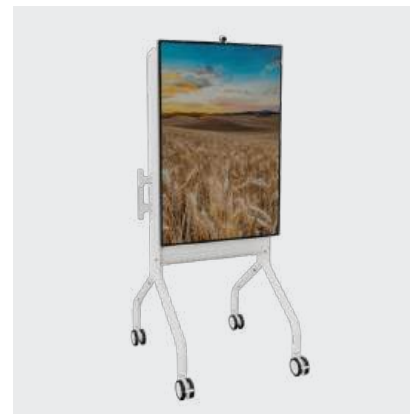

VOYAGER AV CART

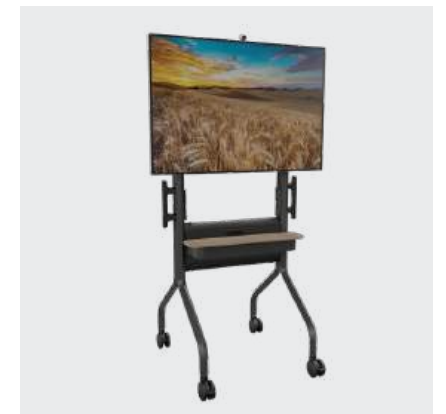

STYLISH CONTEMPORARY DESIGN MEETS ROBUST CONSTRUCTION IN VOYAGER

Voyager AV cart is a mobile display solution to support flexible conferencing and collaboration in workspaces and digital signage applications.

- Built-in cable management
- Integrated small device storage
- Displays up to 75"

LSCUW
LSCUB

ELECTRIC HEIGHT ADJUSTABLE MOUNTS

SUPPORTING INCLUSIVE SPACES

Chief's line of height adjustable display mounts expands to electric solutions. The cart, floor-support and wall mounts have higher weight capacities to support larger interactive displays, and also give an option to users who may prefer an electric solution over non-motorized.

ELECTRIC HEIGHT ADJUSTABLE MOUNTS - XL

Weight capacity up to 140 kg

- Mobile Cart **XPD1U**
- Floor-to-Wall Stand **XFD1U**
- Wall Mounted **XSD1U**

ELECTRIC HEIGHT ADJUSTABLE MOUNTS - L

Weight capacity up to 90 kg

- Mobile Cart **LPE1U**
- Floor-to-Wall Stand **LFE1U**

DYNAMIC HEIGHT ADJUSTABLE MOUNTS - M

Weight capacity up to 30-60 kg

- Wall Mounted **MSD1U**

LARGE VENUE PROJECTOR MOUNTS AND ACCESSORIES

ENHANCE LARGE VENUE PROJECTION

New projector mounts and accessories better align, protect and enhance large venue projection installations. Designed to install quickly while maintaining a sleek aesthetic.

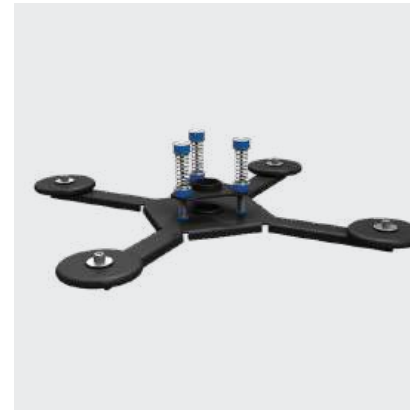

EXTRA-LARGE UNIVERSAL PROJECTOR MOUNT

The VCTU Extra-Large Universal Tool-free Projector mount was designed to install quickly while maintaining a sleek aesthetic.

- Weight capacity 68 kg
- Advanced MicroZone Projector Adjustment options
- White (VCTUW) and Black (VCTUB) option available

VCTUB
VCTUW

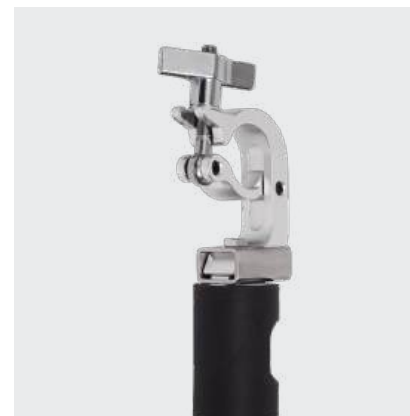

LARGE VENUE VIBRATION ISOLATING COUPLER

The CMA Large Venue Vibration Isolating Coupler reduces image movement caused by common building vibrations like HVAC, foot traffic, road traffic and doors shutting.

- Weight capacity 15 - 45 kg
- Compatible with all Chief CMS columns

CMA348
CMA348W

TRUSS CLAMP

Adapts 1.5" NPT threaded extension columns to a 2" (51mm) tube truss for temporary projection and flat panel needs. Designed especially for rental and staging installation benefits.

- Weight capacity* 113.4 kg
- Compatible with all Chief CMS columns & accessories

CMS380

*Capacity must include all components below the product: column, projector mount, projector, etc.

C2G simplifies Audio-Video and IT connectivity for commercial applications. Our solutions are innovatively designed to provide the critical features needed for the space they occupy in corporate, education, healthcare, government and other crucial environments.

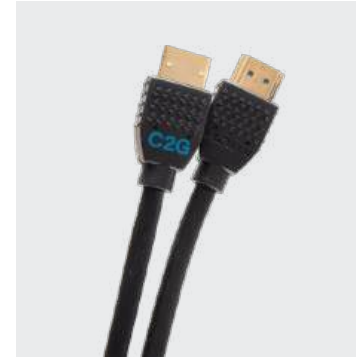

**THUNDERBOLT 4
USB-C CABLE**

This cable supports a top data transfer speed of 40Gbps when connected to Thunderbolt 3 or Thunderbolt 4 devices.

- Supports a single 8K 60Hz display or two 4K 60Hz displays
- Capable of charging up to 100 watts and syncing USB-C mobile devices
- Backward compatible with Thunderbolt 3, USB 3.2, 3.0, and 2.0

C2G28886

**PERFORMANCE SERIES ULTRA
FLEXIBLE HDMI CABLE - 4K**

Tested to conform with the Premium HDMI cable certification program for highest performance and ultra-reliability.

- Supports HDMI Resolutions up to 4K 60Hz, 4:4:4, 18 Gbps
- DVD Audio, Super Audio CD (DSD); Dolby® True HD, DTS-HD Master Audio; Bitstream Capable
- Gold plated connector for increased electrical conductivity and enhanced durability

C2G10377

**USB 4.0 USB-C 240W
CHARGING CABLE**

Supports data transfer speed of 40Gbps and delivers up to 240 watts of power over a USB 4.0 connection.

- Universal compatibility with USB-C and Thunderbolt devices
- Perfect for high-performance gaming laptops, professional workstations and USB-C hubs or docking stations that power multiple devices at once

C2G54552

**CAT6A SNAGLESS UNSHIELDED
SLIM ETHERNET PATCH CABLE**

The perfect solution for high density cabling applications such as large conference rooms and datacenters.

- Supports ethernet speeds up to 10Gbps at distances up to 100 m, ideal for rooms with HDBaseT technology
- Great flexibility in tight space installations through 28AWG conductors

C2G30152

CABLING WITH C2G

SIMPLIFIED CONNECTIVITY

Increase your installation's uptime and reliability with C2G's various cables. Find a selection on this page or reach out to us for the full range of options.

EXTENSION WITH ULTIMATE RELIABILITY

SIMPLIFIED CONNECTIVITY

Extend USB with Superbooster® or HDMI with one of C2G's various transmitters and receivers. Bring your installations to large spaces – without compromising on reliability.

SUPERBOOSTER® 2X4 USB OVER CAT6A EXTENDER SWITCH

The C2G Superbooster® 2x4 USB Extender Switch offers outstanding performance, enabling the transmission of USB 3.2 Gen 1 signals at speeds up to 5Gbps over distances of up to 100m through a single CAT6a U/FTP cable.

- Designed for flexibility and ease of use
- Highly compatible
- Plug and play

C2G54262

SUPERBOOSTER® USB CAMERA EXTENDER KIT

C2G Superbooster USB Extenders deliver reliable USB signal transmission for USB devices, allowing devices such as cameras, interactive whiteboards and printers to be placed at greater distances from the host computer.

- Tested and proven to be reliable
- Plug and play

C2G54277

SUPERBOOSTER® 4-PORT USB OVER CAT6A EXTENDER KIT

C2G's Superbooster 4-Port USB over Cat6a Extender Kit is a perfect solution for USB 3.2 conferencing cameras, interactive white boards, security and monitoring, remote storage, and/or any other USB 3, 2 and 1 device.

- No software drivers required
- Extends up to 100 m over a single Cat6a/FTP cable
- Connect USB 3.1 devices, backwards compatible to USB 2.0 and 1.3

C2G54265

SUPERBOOSTER® 1-PORT USB OVER CAT6A EXTENDER KIT

Our Superbooster USB 3.2 Gen1 camera extenders utilize chipset technology that is more economical than other USB 3.2 extenders on the market.

- Tested with solid state drives and the industry's leading PTZ cameras to ensure compatibility.
- Extends devices up to 100m over a Cat6a U/FTP or F/FTP network cable with data transfer rates of 5Gbps.

C2G54266

HDMI® ULTRA-SLIM HDBASET EXTENDER RECEIVER

This Extender allows a 4K HDMI source to be extended up to 39 m using a single Cat6a cable. Ideal for conference rooms, classrooms, lecture halls and other installations needs that go far beyond standard HDMI cabling.

- No additional power unit required
- Secure connection

C2G31015

HDMI® ULTRA-SLIM HDBASET EXTENDER TRANSMITTER

This Extender allows a 4K HDMI source to be extended up to 39 m using a single Cat6a cable. Ideal for conference rooms, classrooms, lecture halls and other installations needs that go far beyond standard HDMI cabling.

- Additional flexibility through bi-directional PoC support
- Secure connection

C2G30014

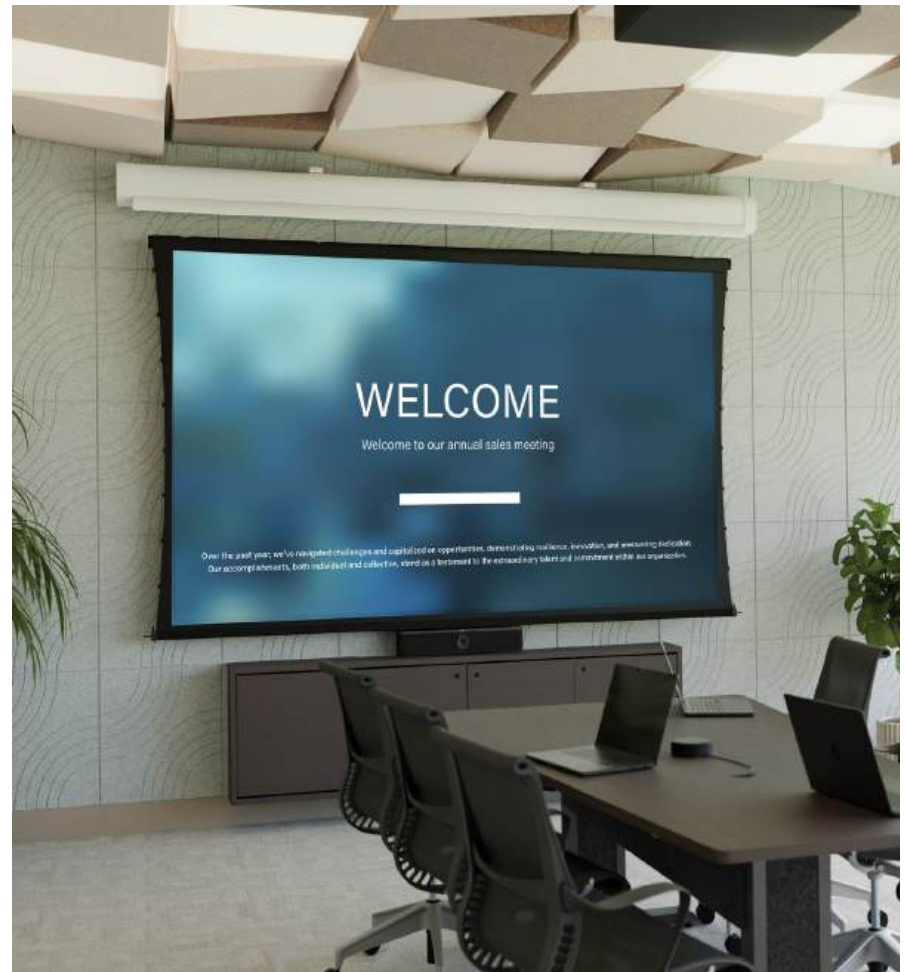

For over 100 years, Da-Lite has been designing, manufacturing and marketing the most comprehensive line of projection screens in the world. Today, we offer our widest selection ever of proprietary projection screen surfaces and materials in our history. Da-Lite screens are manufactured in the US and in The Netherlands.

MYRIAD®

VERSATILE PROJECTION SOLUTIONS

Delivering on customer demand for the SightLine cable drop feature, Myriad offers a solution perfect for global rollouts. The range incorporates both installer- and customer-favorite features for a solution that fits in many different spaces.

MYRIAD® REVEAL

Myriad Reveal is an electric screen made for global rollouts. Production of global part numbers in the US and Netherlands ensure international alignment and ease of ordering. The versatile mounting brackets accommodate both ceiling and wall mounting and the SightLine option makes post-install height adjustment simpler than ever.

- Installation made easy through post-installation adjustment options
- Current sizes 4-5 m wide
- Coming soon: 2-4 m wide sizes

CONCEAL.
REVEAL.

MYRIAD® CONCEAL

The ceiling recessed Myriad Conceal range of global part numbers in the US and Netherlands ensure international alignment and ease of ordering. The SightLine cable drop option makes post-install height adjustment easier than ever.

- Crowd-favorite two-stage installation option
- Current sizes 4-5 m wide
- Coming soon: 2-4 m wide sizes

FIXED FRAME PROJECTION SCREENS

HIGH QUALITY IMAGES MEET ELEGANCE

Fixed Frame projection screens are aesthetic, modern solutions for both smaller and larger spaces. The frame keeps the surface perfectly flat for highly detailed images, even in large spaces or with ambient light.

PARALLAX® THIN WITH PARALLAX PURE 0.6

Modern meeting rooms are getting larger and lighter – the latter causing challenges with standard projection screens. Enter Parallax Thin: an innovative solution perfect for today's meeting rooms.

- Ideal for light meeting rooms
- Perfect for ultrashort throw projection
- Easy to stock and ship

PARALLAX® THIN WITH PARALLAX PURE 0.8

Love Parallax Thin's advantages but unable to do ultrashort throw projection? Parallax Pure 0.8 is a great, ambient light rejecting projection surface, mounted on the Parallax Thin frame.

- Ideal for light meeting rooms
- Easy to stock and ship
- Standard throw projection

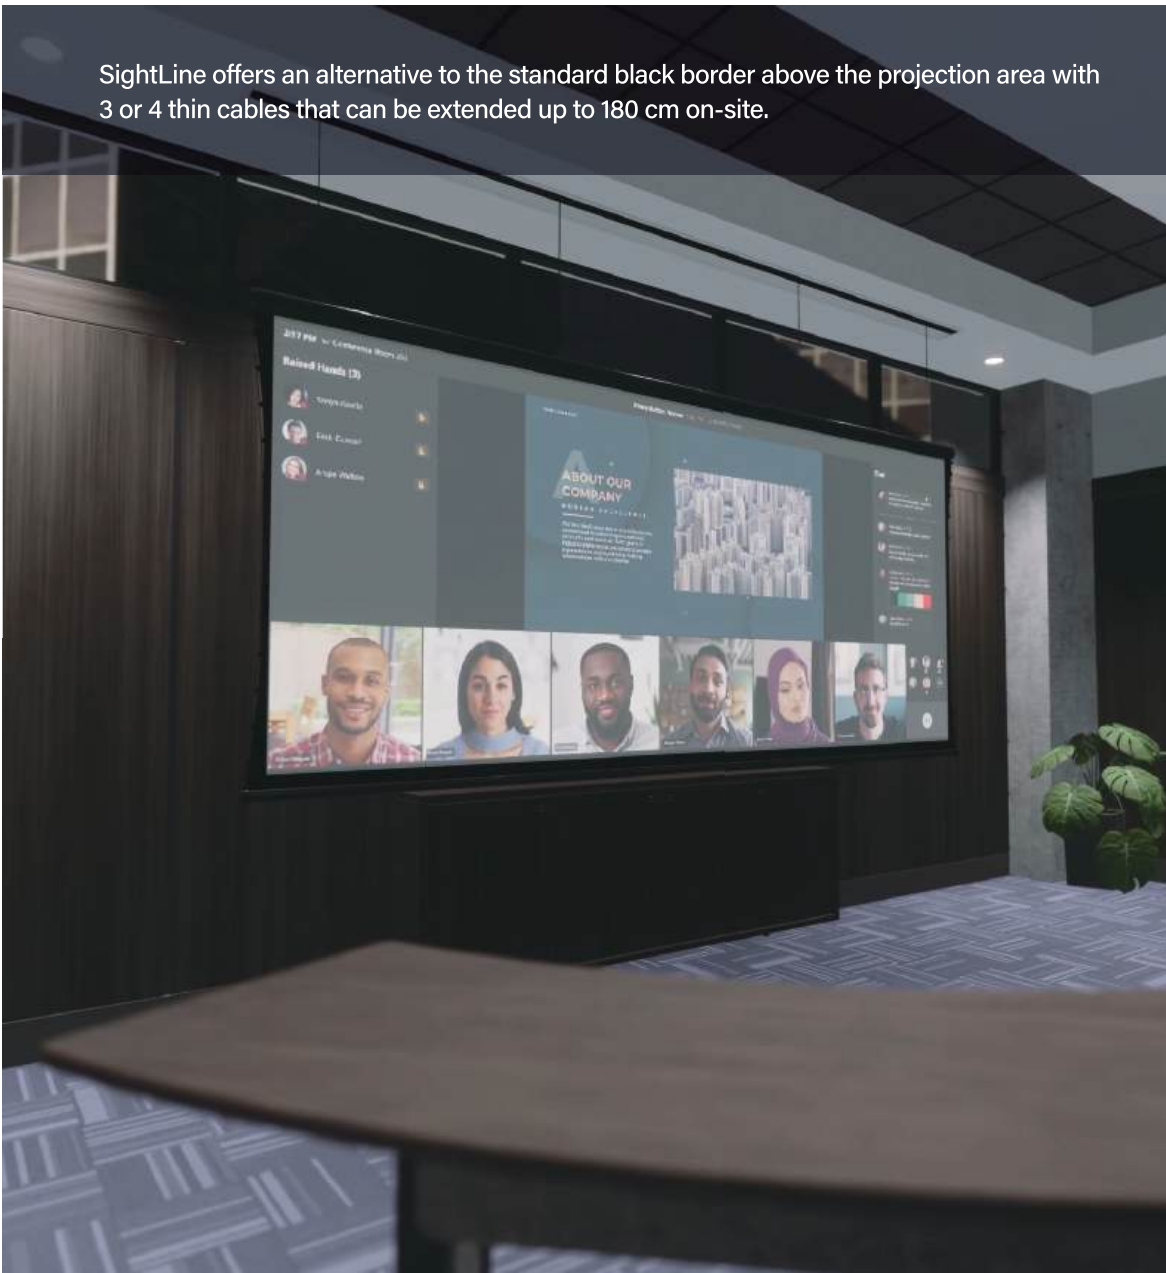

FULLVISION

FullVision is a great choice for any room where the screen should blend into the environment when not in use and deliver the very best in projection when the projector turns on.

- High quality image
- Wide size range
- Lightweight

DA-LITE

SightLine offers an alternative to the standard black border above the projection area with 3 or 4 thin cables that can be extended up to 180 cm on-site.

NEED AN EVEN LONGER DROP?

SIGHTLINE CABLE DROP SYSTEM

Now we have a new option for 300cm cable-drop to install SightLine in even higher applications. SightLine Cable-Drop System makes sure your view above the projection screens projection area is no longer blocked and gives the impression of a large floating image. Drop the projection screen to the height you need while preserving the look of the room when unrolled, the way the architect intended.

SIGHTLINE IS AVAILABLE WITH THE FULL MYRIAD RANGE.

Cinema Contour with HD Progressive 1.0

The Cinema Contour® features a wider, more substantial frame as well as the latest technology in projection surfaces designed for 4K and Ultra HD to maximize the technology of your projector.

- 45-degree angle-cut frame
- Perfectly flat viewing surface
- Surface mounts on the back of an aluminum frame with masking or cropping border

Parallax Thin

The Re-Engineered Parallax® Thin Fixed Frame Screen.

- Parallax PURE UST 0.6
160° VIEWING CONE
- HDTV (16:9)
100" D., 110" D., 120" D
- ULTRAWIDE (21:9)
104" D., 130" D., 152" D
- Ships Parcel
Enhancing logistics & Cost-Efficiency

SCREEN SURFACE SELECTION CALCULATOR

With only a few critical inputs - room size, screen dimensions and projector details, see how these values impact screen surface selection in a specific environment and ultimately, the end users viewing experience when considering Projecta and Da-Lite screen surface technology.

Luxul is the leading innovator of simple-to-deploy, professional-grade IP networking solutions for use by custom installation professionals. Designed for use in both residential and commercial AV environments, the Luxul family offers a complete line of solutions that simplify network design and deployment.

8 REAR PORT MANAGED SWITCH

Designed to support AV-over-IP (AVoIP) applications, the SW-505-8P-R includes eight 1-Gigabit PoE+ Ethernet ports, two non-PoE Ethernet Ports, and two 1-Gigabit SFP expansion ports. Two or more SFP ports can be aggregated for a connection speed of up to 2 Gb.

- 8 rear PoE+ ports
- 130W total power budget

SW-505-8P-R-F

8P FRONT PORT MANAGED SWITCH

Designed to support AV-over-IP (AVoIP) applications, the SW-505-8P-F includes eight 1-Gigabit PoE+ Ethernet ports, two non-PoE Ethernet Ports, and two 1-Gigabit SFP expansion ports. Two or more SFP ports can be aggregated for a connection speed of up to 2 Gb.

- 8 front PoE+ ports
- 130W total power budget

SW-505-8P-F

24P REAR PORT MANAGED SWITCH

Designed to support AV-over-IP (AVoIP) applications, the SW-615-24P-R includes twenty-four 1-Gigabit PoE+ Ethernet ports, and four 10-Gigabit SFP expansion ports. Two or more SFP ports can be aggregated for a connection speed of up to 40 Gbps.

- 24 rear PoE+ ports
- 370W total power budget
- Low noise, variable speed fans

SW-615-24P-R

THE NEW LUXUL UI EXPERIENCE

SMARTER, FASTER, SIMPLER

At the heart of the next generation of Luxul's network management switches is the redesigned Luxul User Interface, created to make network customization and optimization easier than ever. Built on a powerful new chipset, the switches deliver improved performance today while paving the way for future innovations.

Eliminate confusion and save time with the new interface. Get real-time visibility into your network with a switch port status indicator that instantly shows updates for every port, including color-coded speed indicators for quick reference.

Navigation is completely streamlined, allowing you to access settings, make changes, and view reports all in one intuitive space.

Luxul switches are designed to work seamlessly with Vaddio and other Legrand | AV solutions, giving you confidence in a fully integrated system. Advanced features like IGMP and multicast optimization ensure stable AV-over-IP streams without packet loss, while PoE Management 2.0 delivers intelligent power distribution with auto-recovery to simplify troubleshooting. To make setup even faster, new configuration templates provide quick-start options for typical AV installations, including support for leading brands such as Vaddio, Dante, and Sonos, with more coming soon.

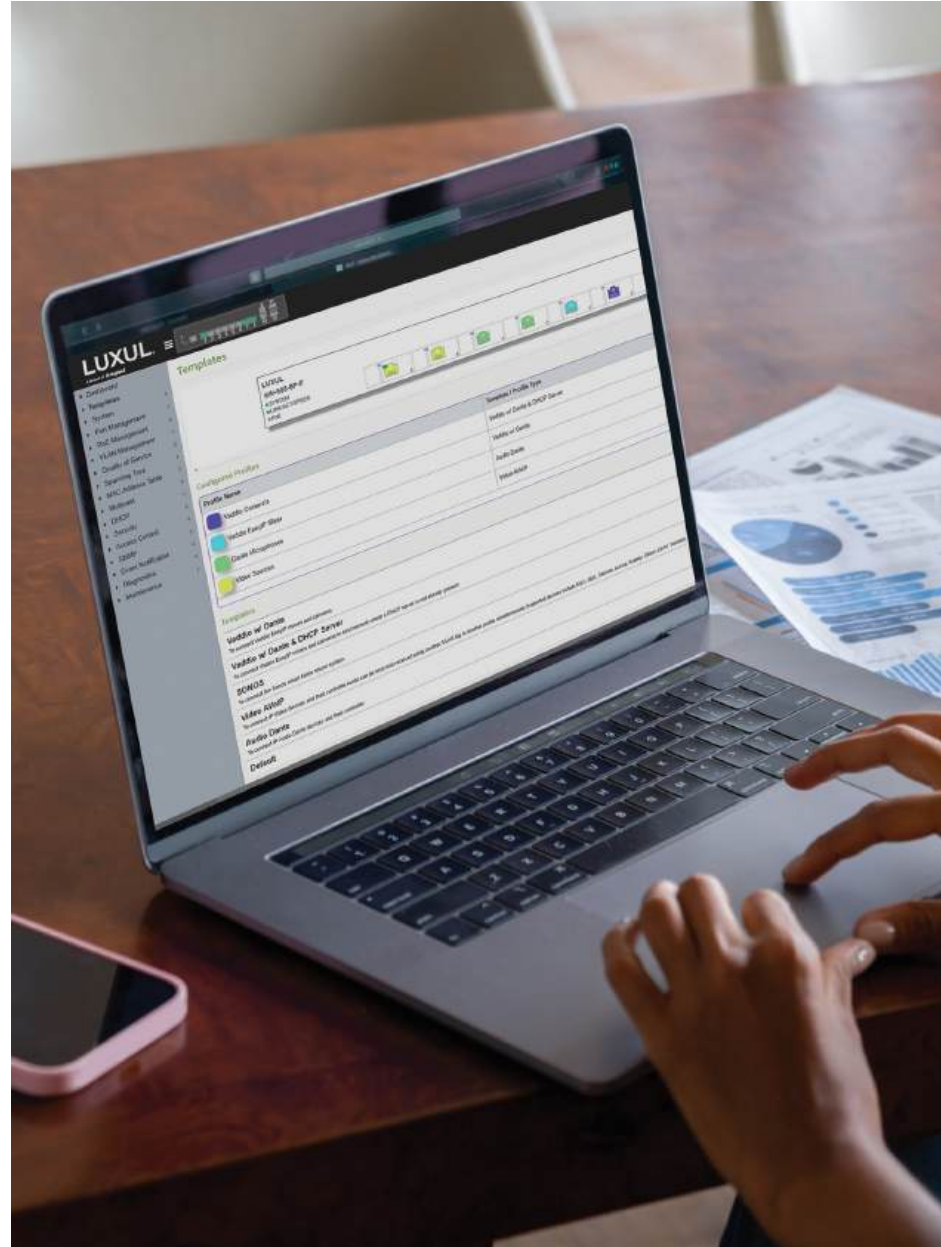

These enhancements mean less time managing and more time achieving. Unlock the full potential of Luxul's managed switches and take your network to the next level today.

YOUR SHORTCUT TO EFFORTLESS AV NETWORK SETUP

INTRODUCING LUXUL SWITCH TEMPLATING

With the release of firmware version v1.00.429 and above, Luxul brings you a powerful new templating feature designed to save time and eliminate complexity.

Instead of manual configurations, you can now apply pre-built templates tailored for common AV installations in just a few clicks. Whether you're setting up Vaddio cameras with Dante audio, optimizing Sonos systems, deploying IGMP-based video distribution, or configuring Dante audio networks, Luxul templates make it simple and reliable.

Accessing and applying templates is easy through the new Templates menu. Customize profiles with names, IP settings, color coding, and port assignments, then review and apply changes instantly. Your configurations persist after reboot, ensuring stability and peace of mind.

And we're just getting started—the template library will continue to grow with integrations from leading AV brands like Q-sys, Crestron NVX, Aurora, Kramer, and Visionary Solutions.

Luxul Switch Templating turns hours of setup into minutes, so you can focus on delivering exceptional AV experiences.

Middle Atlantic offers innovative system enclosures, tech-enabled furniture, power products for complete and unmatched AV system support and protection.

FORUM™ COLLABORATION SUITE

INCLUSIVITY MEETS CONVENIENCE,
ONLINE AND OFFLINE

Designed for flexible workspaces and teaching environments, the Forum Collaboration Suite offers great solutions. Thoughtful features exceed users' expectations.

FORUM™ LECTERN

The Forum Lectern is an ADA-compliant, educator inspired, integrator friendly lectern/teaching station. It enhances the educator's teaching experience and supports a full AV system.

- Available in three widths: 167 cm to 107 cm
- Customize the worksurface
- Additional side rack for more storage

FORUM™ DISPLAY STAND

The Forum Display Stand is designed for workspaces when hybrid collaboration is necessary in either open or closed spaces. The stylish design is outfitted with a shroud and acoustic fabric to ensure the highest quality audio experience for both in-person and remote audiences in open spaces.

- Freestanding and Floor-to-Wall
- Integrated storage with easy access
- Now fully compatible for:
 - Single displays up to 98"
 - Dual displays up to 85"
 - Ultrawide 21:9 displays up to 105"

FORUM™ TABLE

The Forum Table options are a perfect accompaniment to the Forum Display Stand for flexible hybrid videoconferencing scenarios to provide meeting equity for all participants.

- Available in Arc, Angle, and Rectangle shapes
- Accommodates up to 9 participants
- Integrated cable management

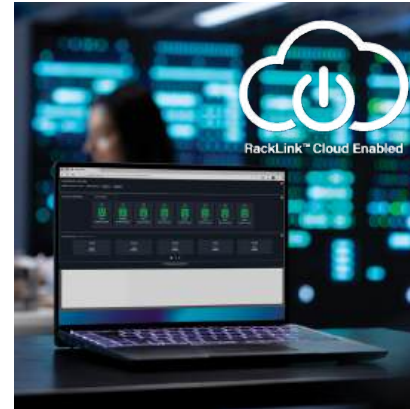

INTELLIGENT POWER SOLUTIONS

ADVANCED AND SIMPLE TO USE

Save costs, increase uptime and reduce your ecological footprint: all with our intelligent power solutions. More than power distribution, Middle Atlantic offers convenience at your fingertips.

RACKLINK™ CLOUD

With RackLink Cloud you can eliminate on-site visits for routine tasks, optimize workforce allocation, and achieve significant cost savings. Experience faster troubleshooting, proactive maintenance, recurring revenue opportunities, and improved uptime for your clients' systems.

- Select Series: manage PDUs remotely
- Premium+ Series: manage and monitor PDUs remotely
- No additional network devices required

PREMIUM+ SERIES PDU WITH RACKLINK™

More than power distribution, the Premium+ IEC PDU with RackLink™ is the most advanced - yet simplest - to use IP control solution for Remote System Management in the industry. The Rack-Link™ technology allows you to control locally or virtually through our free RackLink Cloud, 3rd party AV control systems/cloud platforms and SNMP for flexible management that is smarter, faster and reduces service costs.

- Save energy
- Faster servicing
- Great security

RLNK-P416-IEC-NS
RLNK-P916R-IEC-NS

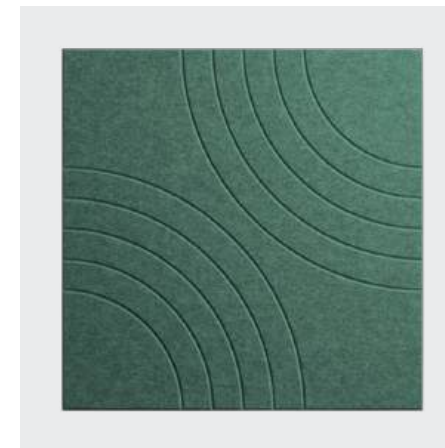

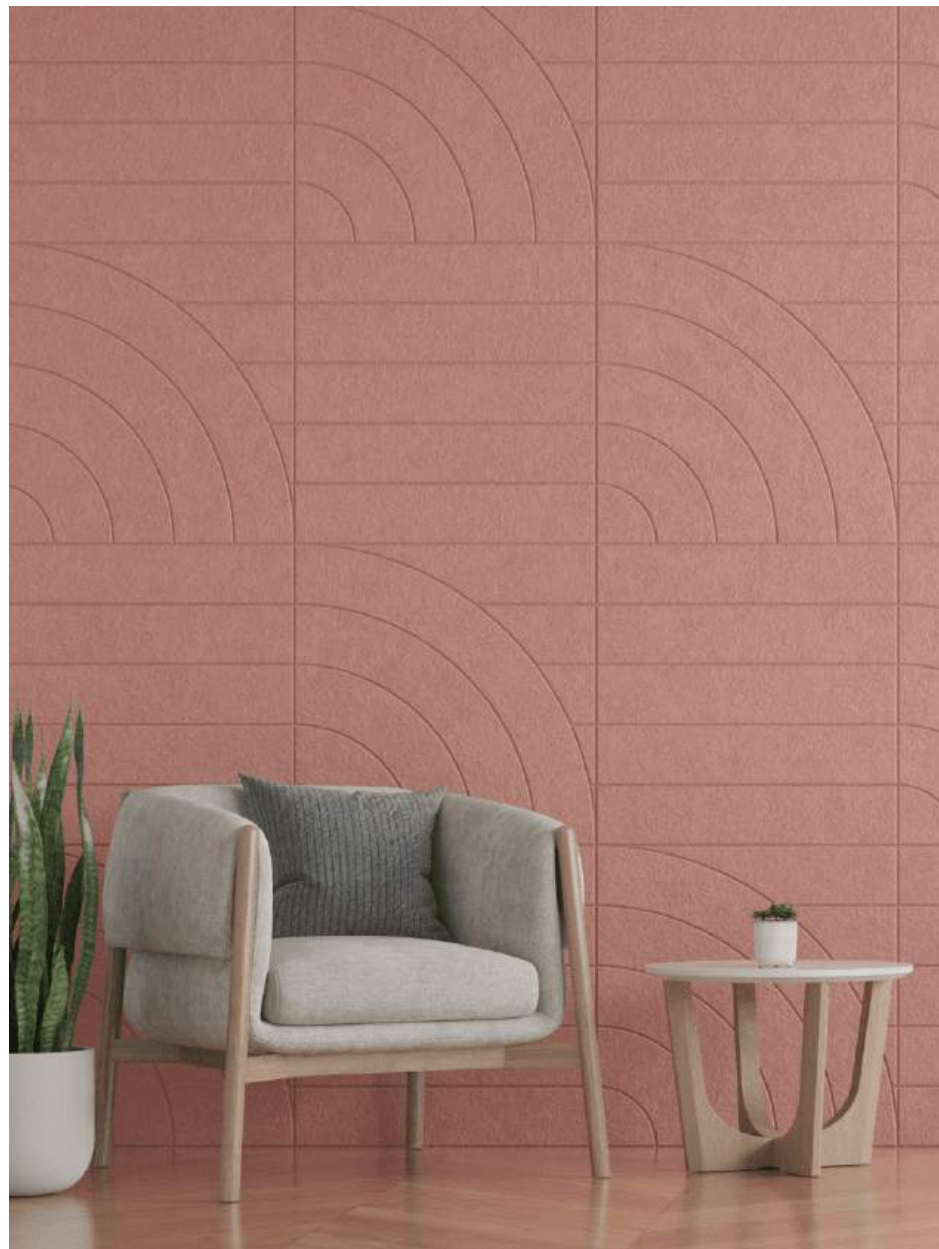

SELECT SERIES PDU WITH RACKLINK™

Select Series PDUs with RackLink™ creates a simple and cost-effective solution that puts intelligent control of power distribution at your fingertips, wherever you are.

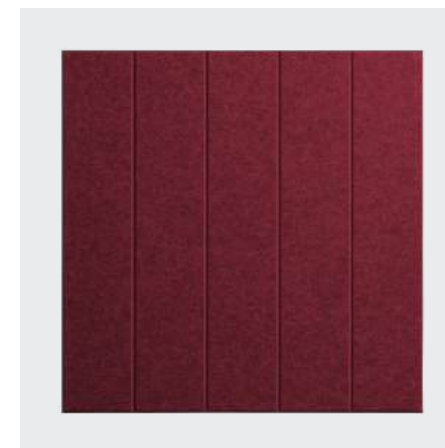

- Control your power anytime, anywhere
- Easy to use
- Wide range of applications

RLNK-210-IEC-NS
RLNK-410R-IEC-NS
RLNK-910R-IEC-NS

Available in a wide color palette, ranging from neutral to bold, TruTile brings the finishing touch to your installation. Play with tile design and orientation to create bespoke patterns.

- Improves acoustics
- Transforms a space
- Easy to install

TRUTILE®

ACOUSTIC WALL TILE

Curved and linear prints intended for vertical or horizontal installation on walls. 60.3 x 60.3 cm modular acoustic wall tiles made of PET felt.

SRSR-4 SERIES SLIDE OUT ROTATING RAIL SYSTEM RACK

Specify an SRSR for easy rear access to equipment connections in millwork, cabinets and flush in-wall installations. Available with a 19" or 23" useable depth, the SRSR system extends and rotates 90° in either direction, making it ideal for smaller systems.

- Simplified installation and maintenance
- Standard front & rear 10-32 threaded rack rail
- Integrated space for cable management

C3 SERIES CREDENZA

The new 25 cm deep C3 Credenza series displays modern contrasted finishes, versatile storage options and fits perfectly underneath displays, in high traffic areas, hallways, and meeting spaces. With the hallmark Middle Atlantic systems approach, each credenza comes with thermal management built in, making it truly an all in one piece of furniture.

- 1, 2, 3 & 4 bay models in 61 cm or 79 cm heights
- Various high pressure laminate finishes
- Designed to accommodate both rackmount and small device mounting

BGR SERIES

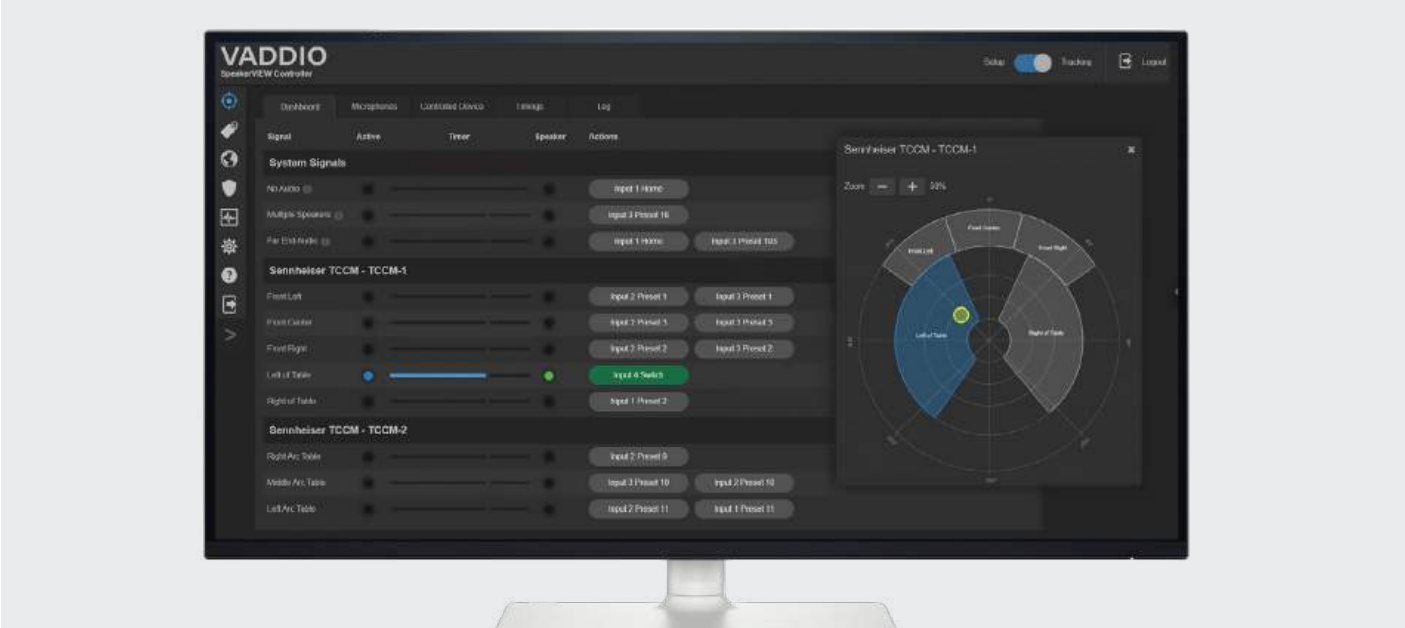

The BGR Series Rack Enclosure delivers the most space efficiency and strength available, plus the latest options for installation flexibility and seamless servicing. With higher weight capacities, more usable rackspace & superior functionality of any other rack system on the market, the BGR Series is the ultimate AV rack.

- Compatible with Forward small device & cable management accessories
- More useable height than any other rack
- Dedicated cable management spaces and thermal management features

Vaddio manufactures professional quality PTZ cameras, Pro AV solutions, a full suite of Unified Communication and Collaboration systems. Combining enterprise class performance and industry leading support, Vaddio products enhance any AV experience by elevating the science of communication with The Art of Easy.

SpeakerVIEW gives you the flexibility to customize your AV setup to match your customers' preferences.

By dynamically directing multiple cameras, it creates a smooth connection between what's happening in the room and what's shared online. Setting up a working installation is simple with the Vaddio SpeakerVIEW Controller or a SpeakerVIEW-enabled switcher like EasyIP mixer or EasyIP Dock, combined with Vaddio cameras and supported microphones.

SPEAKERVIEW

THE SMART SOLUTION FOR DYNAMIC AV AUTOMATION

"WHERE VOICES LEAD, CAMERAS FOLLOW!"

With Vaddio SpeakerVIEW, meetings become more dynamic and inclusive by enabling cameras to automatically focus on whoever is speaking. Integrated with up to eight beamforming microphones from industry leading manufacturers like Sennheiser and Shure, the system effortlessly tracks conversations, creating a natural and professional experience for both in-room participants and remote audiences. Starting March 2026, SpeakerVIEW will be available as a standalone controller and as a free software update for Vaddio EasyIP Mixer and EasyIP Dock video switchers—delivering seamless interaction and equitable engagement for everyone.

EASYIP MIXER

A versatile AV-over-IP switching solution that connects HDMI and USB conferencing devices within the EasyIP ecosystem. This multi-purpose device simplifies video and audio distribution while expanding functionality in modern conferencing spaces.

- Converts HDMI input to EasyIP for flexible video and audio distribution or sends HDMI loop-out for local viewing.
- 4x4 Dante Audio matrix (10x10 cross-point audio matrix)
- Supports up to four EasyIP video sources with built-in video switching and audio mixing, including acoustic echo cancellation.

999-60320-000

EASYIP ECOSYSTEM

NETWORKED CAMERAS MADE EASY

Vaddio EasyIP products are AV-over-IP systems that are easy to use, easy to install, and provide industry-leading video quality. EasyIP saves money because our EasyIP cameras send video over IP, eliminating costly extenders and video switchers, and instead using Cat cables and a network switch.

This cost-effective solution results in faster installation times too, with all components being PoE powered.

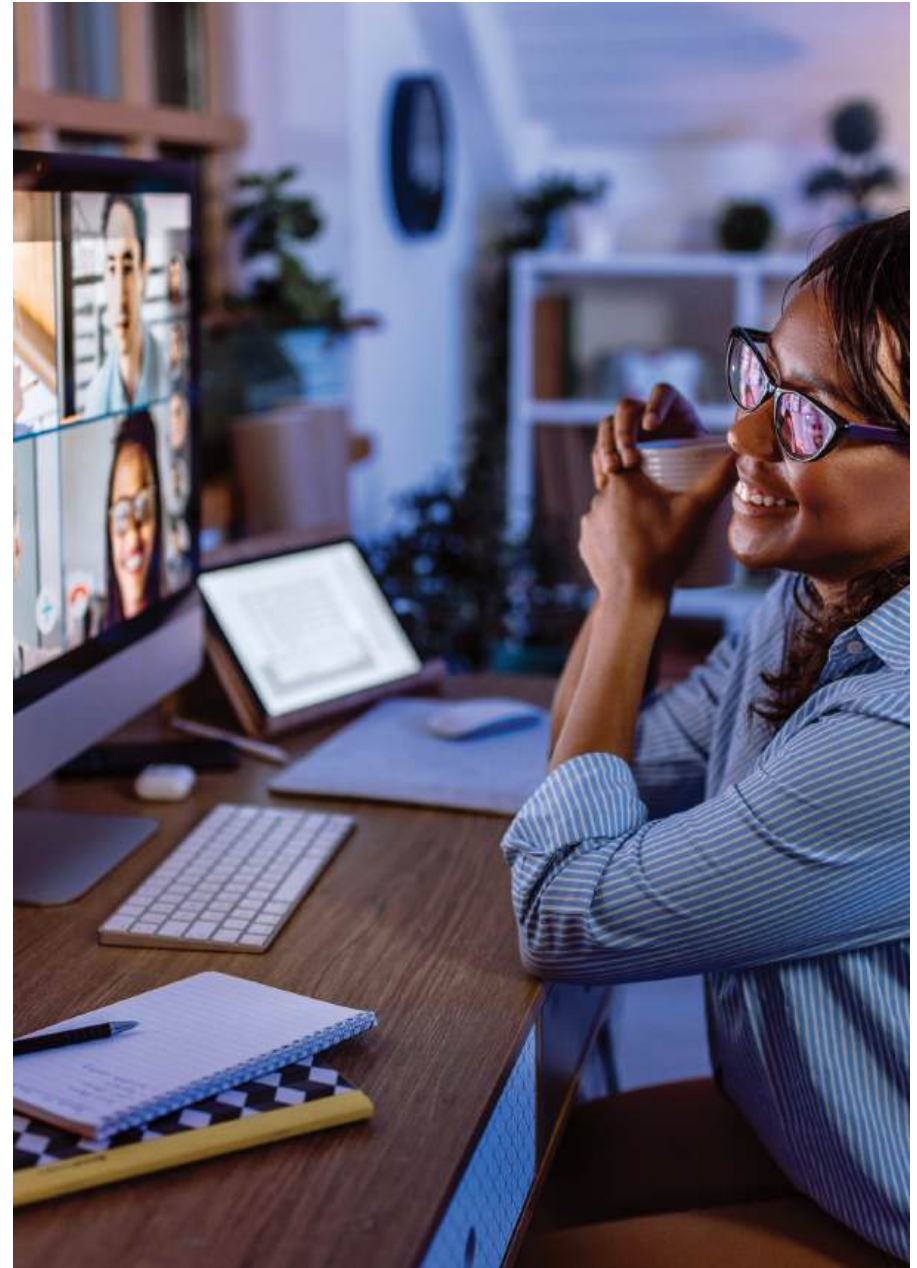

EASYIP DOCK

Ideal for large classrooms and multi-camera applications, the EasyIP Dock combines Dante audio sources and four Vaddio EasyIP cameras to deliver our easiest production switcher to date.

- Compact A/V switcher supporting four EasyIP Camera video feeds plus an HDMI source
- 8x8 Dante Audio matrix (15x13 full cross-point audio matrix)
- Concurrent 1080p/60 USB 3.0 and HDMI output

999-60430-000

EASYIP TX/RX

An adaptable video distribution and extension solution that converts an HDMI signal to EasyIP or EasyIP to HDMI. This two-in-one device is designed to offer a simple way to add features and functionality to your EasyIP environments.

- Converts HDMI signals to EasyIP for flexible distribution to EasyIP endpoints OR receives EasyIP signals and converts to HDMI for local viewing
- Discreet installation behind displays, under tables, or in AV racks
- Auto-switching functionality for convenient transitions between different AV sources

ROBOSHOT GOES 4K
CLARITY THAT CONNECTS

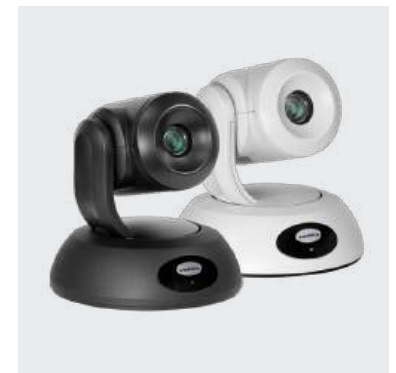

Following earlier updates to RoboFLIP and DocCAM, it’s now RoboSHOT’s turn to be upgraded! Your meetings, conferences and training sessions are clearer than ever for maximum impact. Discover 4K video resolution with all RoboSHOT’s trusted features in RoboSHOT 4K 30E and 4K 12E.

ROBOSHOT ELITE PTZ CAMERA

RoboSHOT Elite cameras deliver striking, high-definition video image quality, plus more powerful image signal processing (ISP) - resulting in better light-gathering capabilities with incredible contrast and, depending on the model, sharp 1080p/60 or even 4K30 video, even in dim areas.

- Advanced IntelliZoom™ ISP (select models) zooms greater distances without compromising image resolution
- Tri-Synchronous Motion technology for ultra-smooth, natural camera motion
- Stand alone or kitted with OneLINK HDMI or OneLINK Bridge

NEW: 4K30 version

AV BRIDGES

CONTROL MADE EASY

Experience worry-free presentations with one of Vaddio's AV bridges. Whether the installation is small or large, complex or simple, there's a bridge for every application.

AV BRIDGE 2X1 SWITCHER

Vaddio's AV Bridge 2x1 Switcher is ideal for videoconferencing and lecture capture applications where either two cameras or a camera and a computer are being used. Its half rack size can be installed easily under a table, providing simple access.

- Supports two HDMI inputs with simultaneous outputs
- 4x4 Dante Audio matrix (12x12 cross-point audio matrix)
- Great audio and video mixing features

999-8250-001

AV BRIDGE MINI

The AV Bridge Mini Audio/Video Encoder captures and streams content in a convenient, compact half-rack size, perfect for lecture halls, conference rooms, and video conferencing applications.

- Enables software-based video conferencing with Pro AV peripherals
- Outputs simultaneous USB 3.0 and IP streaming with up to 1080p quality
- Compact half-rack unit size fits anywhere - easy to install

999-8240-001

AV BRIDGE NANO

The AV Bridge Nano complements AV systems in lecture halls, town hall meetings, or houses of worship and retains some of the most popular qualities of the full-featured AV Bridge models in a highly portable, cost-effective device. Converts an HDMI source into plug-and-play USB and IP connections for use in soft-conferencing or streaming software.

- Single device capable of USB or IP streaming (up to 1080p/60 quality with USB 3.0)
- Compact size, portable and perfect for under-table or behind-display mounting audio line inputs/output
- 12V power supply

999-82600-000

DOCCAM 4K HDBT IN-CEILING DOCUMENT CAMERA

With the 4K resolution and 30x optical zoom, this document camera can be easily installed. Recessed in your ceiling with an easy, single-cable installation, the DocCam 4K HDBT is perfect for any office or school setting.

- 4K image resolution
- 30x optical zoom and 70.2° horizontal field of view
- Simultaneous HDBaseT, SDI, HDMI IP streaming

999-99680-000

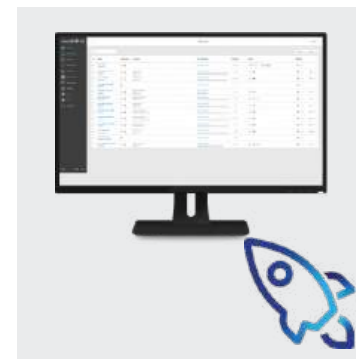

VENTURE® VIDEOBAR

An all-in-one 4K video conferencing solution designed to deliver exceptional audio and video quality with an ultra-high-definition image sensor and advanced tracking technology. Expand onto larger spaces with a Venture TableMIC microphone.

- 5x digital zoom with 110° horizontal field of view
- Premium audio with built-in Hi-Fi speaker system and integrated 6-element beamforming microphone array
- Advanced tracking technology options frame the active speaker, the whole group or present a gallery view

999-50909-000

DEPLOYMENT TOOL

Simplify installations by viewing all your compatible Vaddio products across a deployment on one screen with the simple click of a button. The Vaddio Deployment Tool enables you to select devices from the network, choose an action like reboot the device, unmute the audio, or conduct mass firmware updates on hundreds of devices all at once, which saves you a lot of time.

Best of all, it's free. No licenses, no invoices, no maintenance fees. The Vaddio Deployment tool is for our valued integration partners and AV managers who rely on Vaddio products to keep their AV installations running smoothly.

EDUCATION SPACES

LEGRAND | AV SUPPORTS EFFECTIVE AND INCLUSIVE TEACHING PRACTICES.

Deliver a classroom that feels effortless. With Vaddio EasyIP, instructors connect once and the system does the rest – automatic camera tracking, seamless content switching, and clean cabling that eliminates clutter. Powered by Luxul AV switch and supported by Chief monitor arms, the setup is fast to install, easy to maintain, and built for sustainability. Integrated furniture like the Tempo Floor Support Mount and Forum™ Collaboration Suite Lectern keep AV gear secure and accessible. The result: a professional, reliable, and future ready solution that makes you the installer who transforms teaching spaces.

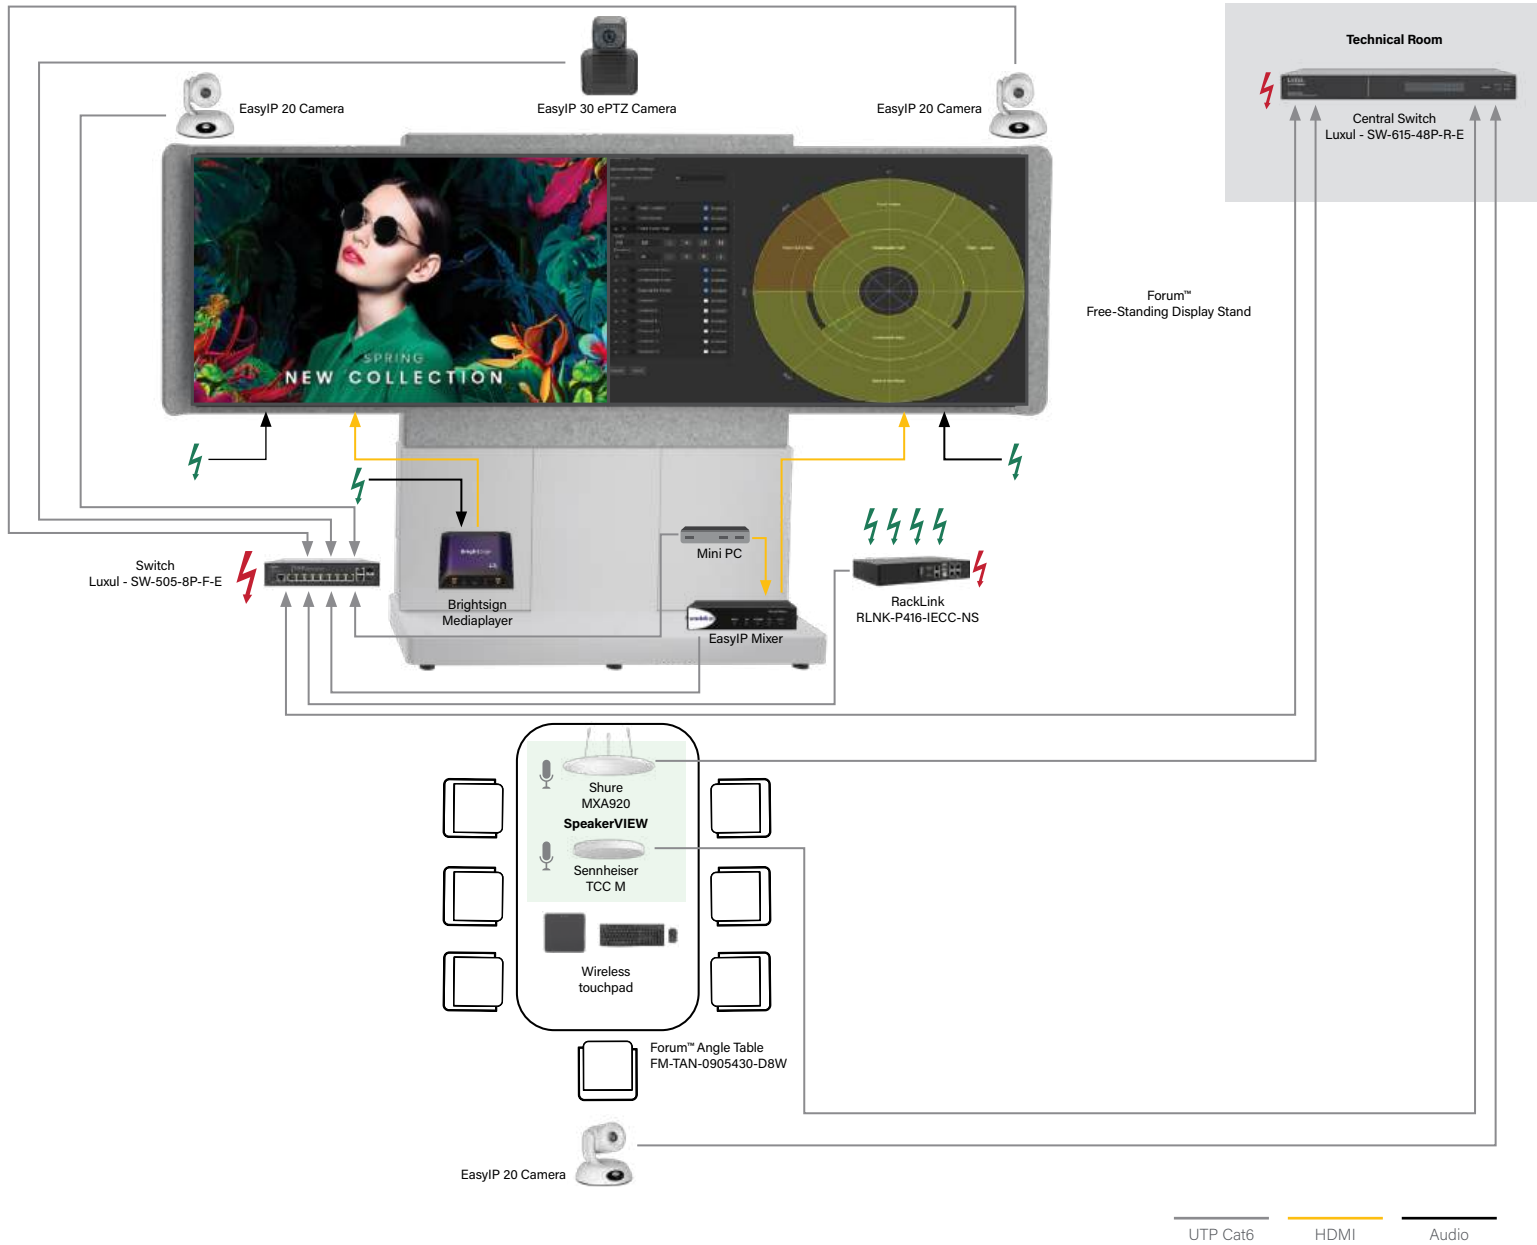

CORPORATE SPACES

YOUR MEETING ROOM RUNS ITSELF WITH
LEGRAND | AV TECHNOLOGY

Create truly automated meeting spaces with Vaddio SpeakerVIEW. Compatible with Shure and Sennheiser beamforming microphones, it detects the active speaker and links directly to PTZ camera presets, ensuring professional hybrid experiences without manual control. Powered by the Luxul AV switch, multiple EasyIP cameras, and the EasyIP Mixer, the system delivers seamless connectivity and streamlined USB output. RackLink PDUs add energy saving schedules and remote monitoring to reduce service costs. The result: a hands free, reliable solution that lowers errors and expenses while delivering premium engagement in boardrooms, training centers, and town halls.
