About Crestron

For more than 50 years, Crestron has been at the forefront of workplace technology, delivering intelligent solutions that transform the way people communicate, collaborate, and control their environments. Trusted by Fortune 500 companies, educational institutions, government agencies, healthcare organizations, and luxury residences worldwide, Crestron creates seamless experiences that make every space smarter, more productive and easier to manage.

From meeting rooms and classrooms to campuses and enterprise facilities, Crestron empowers organizations with innovative technology that adapts to the way people work today — and tomorrow.

Why Crestron

Crestron delivers more than individual products—it provides complete, integrated solutions designed for reliability, scalability, and exceptional user experiences.

Why Organizations Choose Crestron

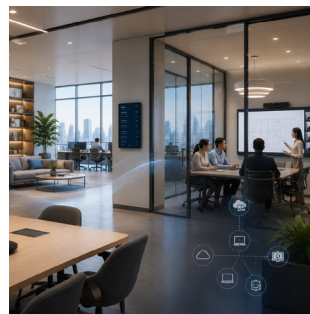

Complete Integration

A unified platform that connects AV, collaboration, room control, lighting, shading, and building technologies.

Enterprise-Grade Reliability

Proven performance trusted in mission-critical environments around the world.

Flexible & Future-Ready

Supports leading collaboration platforms including Microsoft Teams®, Zoom®, and other industry standards.

Centralized Management

Monitor, manage, and update devices remotely through XiO Cloud®.

Scalable Solutions

Easily expand from a single room to thousands of connected spaces.

Premium User Experience

Intuitive interfaces designed to simplify every interaction.

Partnering with Crestron means aligning with a platform and a network
built for long-term success.

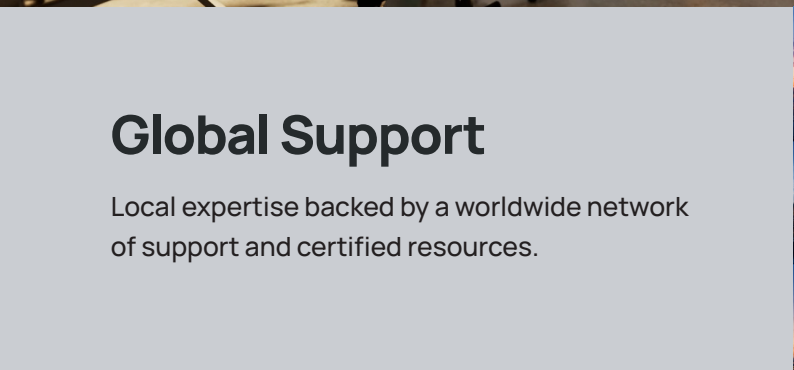

Reliability

Enterprise-grade hardware and software engineered for mission-critical performance, day after day.

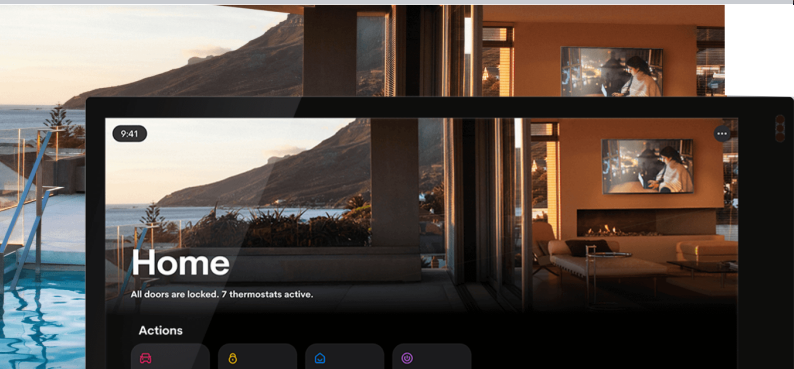

Scalability

Solutions that grow from a single room to a global portfolio of connected spaces without re-architecting.

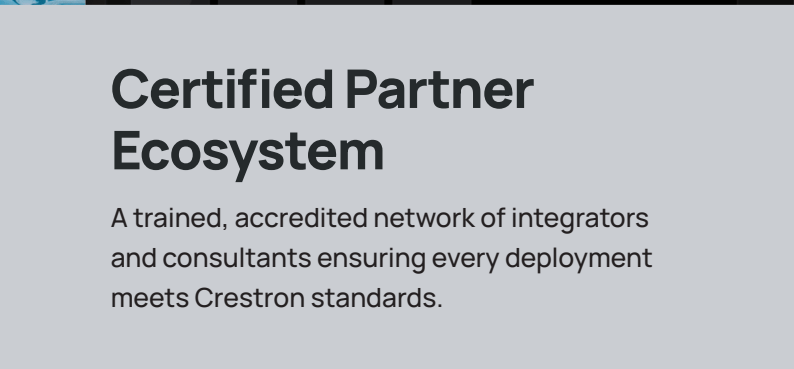

Global Support

Local expertise backed by a worldwide network of support and certified resources.

Security

Built-in safeguards and enterprise IT alignment to protect devices, networks, and data.

Certified Partner Ecosystem

A trained, accredited network of integrators and consultants ensuring every deployment meets Crestron standards.

Complete Ecosystem Content. Collaboration. Control.

Crestron offers a comprehensive ecosystem that brings together every element of the modern workplace into one intelligent platform. Whether you're sharing content, hosting hybrid meetings, managing conference rooms, automating building systems, or monitoring devices across multiple locations, Crestron solutions work seamlessly together to deliver a consistent and effortless experience.

Content

Sharing information is the foundation of organizational productivity. Our solutions enable you to distribute audio and video content at the highest quality from virtually any source to practically any destination with minimal latency, providing frictionless experiences that keep ideas flowing and decisions moving forward.

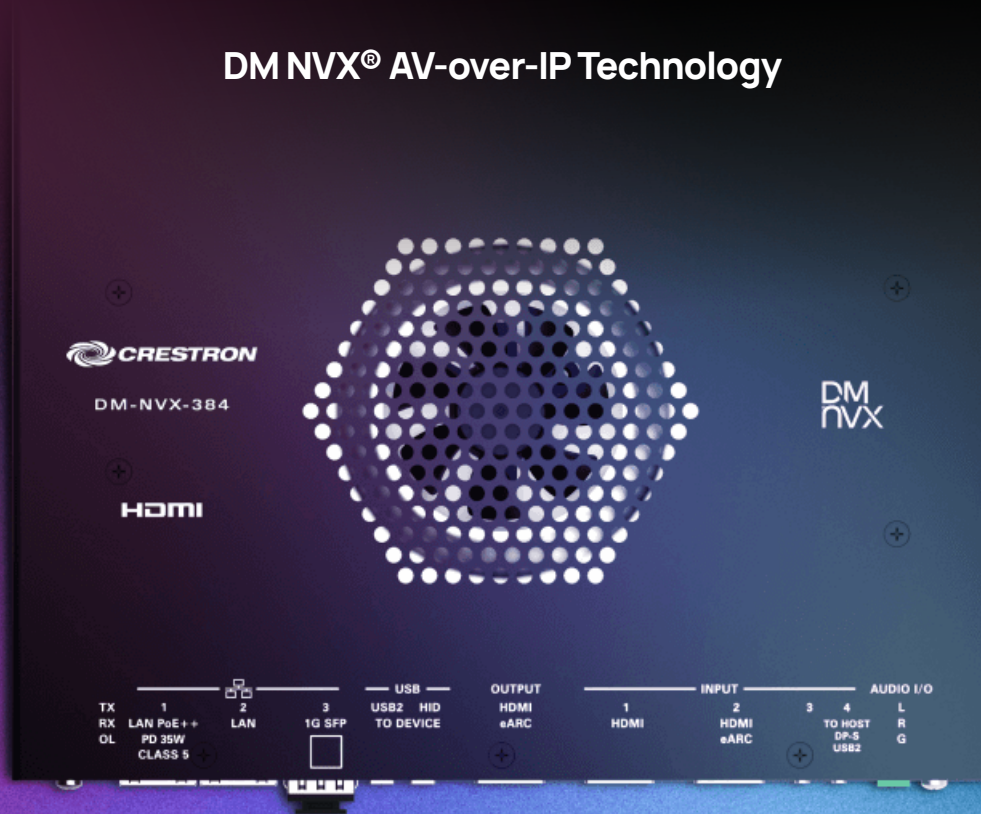

DM NVX® AV-over-IP technology

DM® Essentials products

DM NVX® AV-over-IP Technology

DM-NVX-384

DM NVX® 5K 4x1 AV-over-IP Switcher
with HDMI® and USB-C® Connectivity

A reliable, high-performance AV-over-IP encoder or decoder with a built-in 4x1 HDMI® and USB-C® input switcher that transports up to 5K video over standard Gigabit Ethernet with no perceptible latency or loss of quality

DM-NVX-384

SRP ₱291,400

DM-NVX-360

DM NVX® 4K60 4:4:4 HDR Network AV
Encoder/Decoder

A high-performance AV-over-IP encoder/decoder that delivers secure, low-latency 4K60 video over standard Gigabit Ethernet. It supports HDR, HDCP 2.3, built-in scaling, video wall processing, USB/KVM routing, and AES67 audio for scalable enterprise and campus-wide AV distribution.

DM-NVX-360

SRP ₱214,200

DM-NVX-D20

DM NVX® 4K60 4:2:0 Network AV
Decoder

A reliable, high-performance AV-over-IP decoder that receives 4K60 4:2:0 and 4K30 4:4:4 video over standard Gigabit Ethernet with no perceptible latency or loss of quality. Supports HDCP 2.3 and provides a secure 4K signal routing solution for enterprise and campus-wide content distribution applications.

DM-NVX-D20

SRP ₱93,700

DM-NVX-D30

DM NVX® 4K60 4:4:4 HDR Network AV
Decoder

A reliable, high-performance AV-over-IP decoder that receives 4K60 4:4:4 video over standard Gigabit Ethernet with no perceptible latency or loss of quality. Supports HDR (High Dynamic Range) and HDCP 2.3. Provides a secure 4K signal routing solution for enterprise and campus-wide content distribution applications.

DM-NVX-D30

SRP ₱134,400

DM-NVX-E20

DM NVX® 4K60 4:2:0 Network AV
Encoder

A reliable, high-performance AV-over-IP encoder that transports 4K60 4:2:0 and 4K30 4:4:4 video over standard Gigabit Ethernet with no perceptible latency or loss of quality. Supports HDCP 2.3 and provides a secure 4K signal routing solution for enterprise and campus-wide content distribution applications.

DM-NVX-E20

SRP ₱93,700

DM-NVX-E30

DM NVX® 4K60 4:4:4 HDR Network AV
Encoder

A reliable, high-performance AV-over-IP encoder that transports 4K60 4:4:4 video over standard Gigabit Ethernet with no perceptible latency or loss of quality. Supports HDR (High Dynamic Range) and HDCP 2.3. Provides a secure 4K signal routing solution for enterprise and campus-wide content distribution applications.

DM-NVX-E30

SRP ₱134,400

DM® Essentials

Localized Content Distribution

HD-RXC-4KZ-101

DM® Essentials 4K60 4:4:4 Receiver for HDMI®, RS-232, and IR Signal Extension over CATx Cable

Interoperability with a DM® Essentials transmitter or DMPS Essentials switcher to provide point-to-point extension of HDMI®, RS-232, and IR signals over a CATx cable. Supports 4K60 4:4:4 video, HDR10+, and HDCP 2.3.

HD-RXC-4KZ-101
SRP ₱39,100

HD-TXC-4KZ-101

DM® Essentials 4K60 4:4:4 Transmitter for HDMI®, RS-232, and IR Signal Extension over CATx Cable

Interoperability with a DM® Essentials receiver or DMPS Essentials switcher to provide point-to-point extension of HDMI®, RS-232, and IR signals over a CATx cable. Supports 4K60 4:4:4 video, HDR10+, and HDCP 2.3.

HD-TXC-4KZ-101
SRP ₱39,100

Collaboration

Sharing information is the foundation of organizational productivity. Our solutions enable you to distribute audio and video content at the highest quality from virtually any source to practically any destination with minimal latency, providing frictionless experiences that keep ideas flowing and decisions moving forward.

AirMedia®

1 Beyond Cameras

Automate VX

AirMedia® Wireless Presentation and Conferencing System

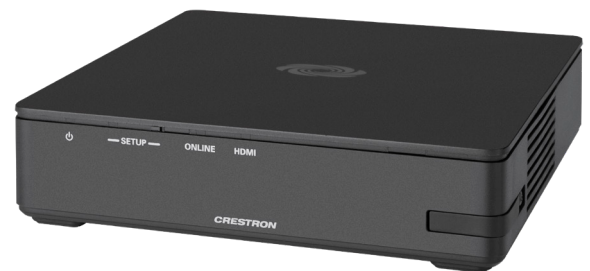

Transform any environment into a high-performance BYOD space. Present wirelessly. Collaborate using any conferencing platform. Command the room with built-in Crestron Control. Make displays into intelligent digital signage hubs.

AM-3000-WF-I

AirMedia® Receiver 3000 with Wi-Fi® Network Connectivity, International

The AirMedia® Receiver 3000 (AM-3000-WF-I) enables secure wireless collaboration in the modern digital workspace. Easy to deploy and manage, install the Receiver in conference rooms, huddle rooms, lounges, lobbies, or almost any space to establish a productive meeting environment.

AM-3000-WF-I
SRP ₱101,800

AM-3100-WF-I

AirMedia® Receiver 3100 with Wi-Fi® Network Connectivity, International

The AirMedia® Receiver 3100 (AM-3100-WF-I) enables secure wireless collaboration in the modern digital workspace. Easy to deploy and manage, install the Receiver in conference rooms, huddle rooms, lounges, lobbies, or almost any space to establish a productive meeting environment.

AM-3100-WF-I
SRP ₱149,800

AM-3200-WF-I

AirMedia® Receiver 3200 with Wi-Fi® Network Connectivity, International

The AirMedia® Receiver 3200 (AM-3200-WF-I) enables secure wireless collaboration in the modern digital workspace. Easy to deploy and manage, install the Receiver in conference rooms, huddle rooms, lounges, lobbies, or almost any space to establish a productive meeting environment.

AM-3200-WF-I

SRP ₱236,900

AM-TX3-100

AirMedia® Series 3 Connect Adaptor

The AirMedia® Connect Adaptor (AM-TX3-100) enables wireless presentation and conferencing¹ when paired with a Wi-Fi® network capable AirMedia Series 3 Receiver. Deploy the AM-TX3-100 alongside an AirMedia Series 3 Receiver in conference rooms, huddle rooms, lounges, lobbies, or almost any space to establish a productive meeting environment.

AM-3000-WF-I

SRP ₱74,900

AM-TX3-200

AirMedia® Series 3 Connect Endpoint

The AirMedia® Series 3 Connect Endpoint (AM-TX3-200) enables wireless presentation and conferencing¹ when paired with a Wi-Fi® network capable AirMedia Series 3 Receiver. Deploy the AM-TX3-200 alongside a compatible AirMedia receiver in conference rooms, huddle spaces, classrooms, or almost any space to establish a productive meeting or learning environment.

AM-TX3-200

SRP ₱94,400

1 Beyond Cameras

Exceptional Image Quality

Flawless Performance

High-quality video

Bring everyone closer together, clearly, with 12x and 20x zoom options and premium sensors.

Advanced image processing

Wide dynamic range and advanced color correction for enhanced clarity, sharpness, and overall image quality.

Widely compatible

Supports different workflows with standard outputs like USB, HDMI® connectivity. NDI, and SDI for certain applications.

Simple to deploy

Camera Manager software streamlines setup. Universal Mounting Bracket offers versatile installation options.

Premium industrial design

Sophisticated design with Moon Gray or Bright White color options to complement modern aesthetics.

Privacy mode

Know when camera output is turned off for privacy. Camera turns around and LED shows half-red bar.

Fast and Powerful Processor

Onboard Neural Processing

Every space, every scenario

i-Series cameras

p-Series cameras

i12D camera

i-Series—Intelligent cameras with Visual AI features including group framing, presenter tracking, and multi-camera intelligent switching, with a wide-angle reference camera for full room analysis.

IV-CAM-I20-B

Crestron 1 Beyond i20 Intelligent PTZ Camera, 20x Optical Zoom, Moon Gray

A high-quality intelligent PTZ camera that uses visual AI to automatically track or frame a presenter. Ideal for presenter tracking in large to extra-large sized training rooms and classrooms, and group tracking meeting participants in large to extra-large conference rooms. Preset Zones are available to automatically change camera behavior when participants enter different areas in the room.

IV-CAM-I20-B
SRP ₱902,800

IV-CAM-I12-B

Crestron 1 Beyond i12 Intelligent PTZ Camera, 12x Optical Zoom, Moon Gray

A high-quality intelligent PTZ camera that uses visual AI to automatically track or frame meeting participants. Ideal for group framing meeting participants in medium to large conference rooms, and presenter tracking in medium-sized training rooms and classrooms. Combine two IV-CAM-I12-B cameras for a multi-camera switching solution.

IV-CAM-I12-B
SRP ₱470,500

I12D—Dual PTZ cameras delivering speaker-tracking, group framing, and dynamic composition in a single streamlined device.

IV-CAM-I12D-B

Crestron 1 Beyond i12D Intelligent 4K
Dual Camera Speaker-Tracking Solution,
12x Optical Zoom, Moon Gray

NEW

The IV-CAM-I12D-B is an intelligent speaker-tracking solution that utilizes a pair of 4K PTZ cameras to automatically follow the active speaking participant. In combination with the 4K reference camera and integrated microphone array for spatial audio detection, use the IV-CAM-I12D-B in medium to large spaces when a close-up view of speaking participants is desired.

IV-CAM-I12D-B

SRP ₱984,900

p-Series—Standard PTZ cameras ideal for clear close-up shots; excel in multi-camera applications including Automate VX speaker tracking, or standalone.

IV-CAM-P20-B

Crestron 1 Beyond p20 PTZ Camera, 20x Optical Zoom, Moon Gray

A high-quality PTZ camera that can output up to 1080p60 resolution video. Ideal for large to extra-large rooms where one camera needs to capture several areas of the room. Use with the IV-SAM-VX2-S Crestron 1 Beyond Automate VX as part of a complete multi-camera switching solution.

IV-CAM-P20-B
SRP ₱357,400

IV-CAM-P12-B

Crestron 1 Beyond p12 PTZ Camera, 12x Optical Zoom, Moon Gray

A high-quality PTZ camera that can output up to 1080p60 resolution video. Ideal for medium to large rooms where one camera needs to capture several areas of the room. Use with the IV-SAM-VX2-S Crestron 1 Beyond Automate VX as part of a complete multi-camera switching solution.

IV-CAM-P12-B
SRP ₱376,100

Automate VX

Voice-Activated Switching

Make meetings more effective from every perspective. Automate VX intelligently coordinates multiple cameras to follow the conversation, framing the right person at the right moment—so remote participants feel as present as everyone in the room.

Built for boardrooms—where there's no room for misunderstanding

Voice-activated, production-style switching and control—supports up to 12 cameras

Visual AI auto-frames and reframes to keep the speaker centered, every time

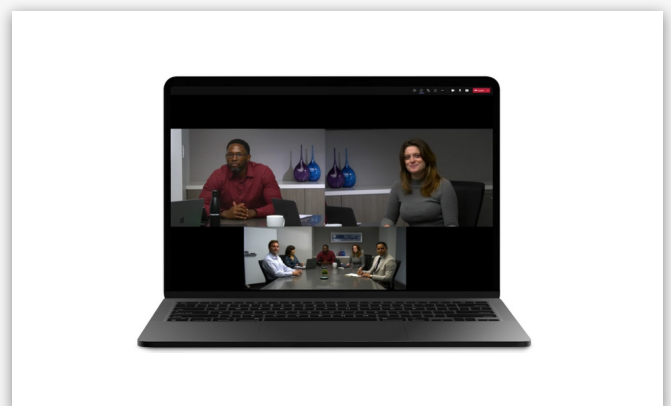

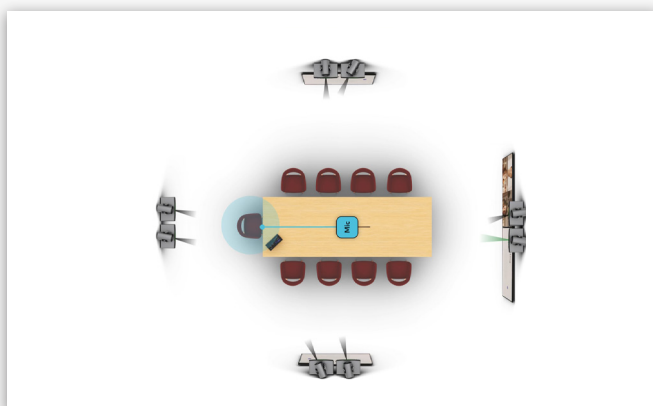

Customizable layouts—speaker tracking, conversation mode, dynamic composition.

Integrates natively with Crestron 4-Series™ processors and Crestron Flex® plus third-party control via API

Works with most third-party microphones and DSPs on the market

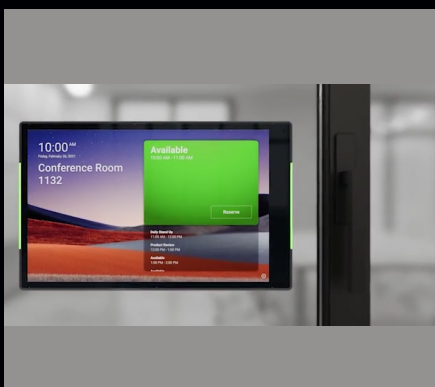

Control

Control is where the Crestron platform comes together. A single, secure architecture ties the AV system, lighting, shading, climate, and occupancy data in every space into one coordinated environment—then presents it through an interface anyone can use without training. From a two-person huddle room to a campus of a thousand connected spaces, the same processors, touch screens, and management tools scale to fit. IT teams standardize once and deploy everywhere, with every device visible, updatable, and supportable from a single platform.

Control Panel

Automation

XiO Cloud

Touch Screens & Control Panels

One interface for the meeting, the room, and everything in it. Crestron touch screens run native Microsoft Teams® Rooms and Zoom Rooms® interfaces, room scheduling, and fully custom control projects—all powered and networked over a single cable.

TS-70 Series – Tabletop Touch Screens

4-Series™ Control Processors

CP4N	4-Series™ Control System with Isolated Control Subnet	SRP ₱302,800
RMC4	4-Series™ Compact Room Media Controller, DIN Rail Mountable	SRP ₱108,300
DIN-AP4	4-Series™ DIN Rail Control System	SRP ₱162,800

Zūm

Crestron Zūm Lighting control system

Flexible design, installation, and deployment. Brought to light.

Lighting & Automation

Scene-based lighting, automated shading, climate, and occupancy sensing on one network. Zūm® commercial lighting configures room by room from a mobile app or centrally from a hub, and integrates with the same control system and XiO Cloud® account as the AV.

Lighting control systems for a new generation

Zūm Wired

Deploy lighting in any room using an Ethernet network to monitor and manage devices.

Zūm Wireless

Leverage mesh networking to wirelessly connect devices across a building or campus.

DIN Rail Solutions

Get simple centralized and distributed options connected by CAT5 and DIN rail mounted.

Deploy your way

Centralized or decentralized. Ethernet or wireless mesh. Zūm lighting control systems give you complete design flexibility over any deployment style and load—they even scale as your needs grow.

Crestron XiO CLOUD

XiO Cloud®

XiO Cloud is Crestron's cloud-based device management platform, giving IT teams a single pane of glass to monitor, manage, and update every connected device—across one room or thousands of spaces, in one building or across the globe. Provisioning, firmware updates, and health monitoring happen remotely, reducing truck rolls and downtime while keeping every space running at its best.

XiO Cloud and XiO Cloud Premium

Two powerful subscription options to deploy and manage all your workplace technology through the XiO Cloud® platform.

Keep rooms working, meetings moving, and teams productive

You have lots of spaces and devices to manage. Our XiO Cloud® technology operations management platform makes it simple. Deploy, monitor, and manage all your Crestron devices from one dashboard. Organization-wide. From personal spaces to lecture halls. Lobbies to lounges. Esports to video walls. View status. Configure devices. Check network settings. Manage licenses and firmware. All from one secure location in the cloud.

Two subscription tiers

The free XiO Cloud subscription delivers all the core functions you need to deploy and manage Crestron devices. XiO Cloud Premium brings additional powerful functionality, including provisioning of third-party devices.

Lifecycle of a space

The needs of spaces frequently change. And technology innovation and upgrade cycles are shorter today than ever. XiO Cloud and XiO Cloud Premium subscriptions help you meet these challenges with the ability to deploy, monitor, manage, and evolve your spaces and technology quickly and efficiently.

10-Second Rooms

Crestron's 10-Second Rooms philosophy is simple: a space should respond to the people in it almost instantly—lights set, shades adjusted, the temperature comfortable, and technology ready, all before anyone touches a button.

That experience is powered by five integrated control layers:

CONTROL PROCESSORS

Centralized processing that ties every system in a room together and keeps it running reliably.

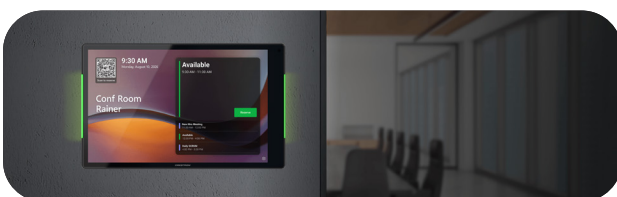

LIGHTING CONTROL

Scene-based lighting that adapts to meeting type, time of day, and occupancy.

SHADING

Automated shades that manage glare and privacy without manual adjustment.

ENVIRONMENTAL CONTROLS

Smart climate management that keeps every space comfortable and efficient.

OCCUPANCY & ROOM AUTOMATION

Sensors that detect when a room is in use and automatically optimize energy and readiness.

Crestron solutions are tailored to the unique demands of every sector, delivered through a single, unified platform.

CORPORATE

Purpose-built for the modern enterprise—from huddle spaces to boardrooms—enabling frictionless hybrid meetings and centralized management across every office.

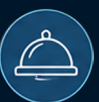

EDUCATION

Reliable, easy-to-use technology for classrooms, lecture halls, and campuses that keeps instructors focused on teaching, not troubleshooting.

GOVERNMENT

Secure, mission-critical AV and control solutions built to meet the reliability and compliance demands of public-sector facilities.

HOSPITALITY

Elevated guest and meeting experiences for hotels and venues, with intuitive controls that reflect a premium brand at every touchpoint.

RESIDENTIAL

Seamless, luxury-grade control of entertainment, lighting, shading, and climate designed to disappear into the home and simply work.

Why Choose Versatech?

As your trusted technology partner, Versatech provides access to Crestron's industry-leading content, collaboration, and control solutions—backed by expert consultation, reliable service, and dedicated support.
